Our Vision

Gigamind is a Christian based kindergarten, dedicated to providing quality education. Our pedagogy is child-based and is geared to meet the children's abilities and development needs. All our teachers not only have received professional training in early childhood education, they are also experienced and versatile in different skills. Through Christian and moral education, we strive to promote a positive view of life and to instil in the children the fundamentals of gratitude, love and to arouse their inquisitive nature. Through artistic creation, we help the children to cultivate their interests. It is designed to stimulate the growth of children's mental and physical development and to arouse their inquisitive nature.

Curriculum Features:

Our curriculum is child-based and from the child's perspective. The school's curriculum is geared to meet the children's abilities and interests. It is designed to stimulate the growth of the children and their potential to the fullest extent in a comprehensive and self-balanced manner.

Our school provide different learning activities to develop the children’s learning skills, restructure their experiences, and construct knowledge for learning.

Campus Environment

Our campus is designed to meet the developmental needs of the children. It is constructed to help develop the children's potential, the school has an outdoor and indoor gym for training their gross motor skills. The classrooms are spacious, well ventilated and brightly lit. Inside are various activity corners that allow the children to learn in a joyful manner.

We emphasize in forging a scientific mind so that the children develop the habit of searching for truth and mastering technology capabilities in both imaginative and creative domains; while providing them the opportunities and interesting learning experiments for the children. It allows them to take the initiative to become more self-reliant and independent, while also enhancing their physical development.

Our English teacher designs lessons that will raise their interest in learning English. These programs are designed to expose the children to both languages equally. Putonghua is taught by a native teacher biweekly. These programs are bilingual (Cantonese/English). Both Cantonese and English teachers work collaboratively to expose the children to both languages.

Two’s program

This program is intended for children aged 1 to 2 years, accompanied by an adult. Our teachers design and implement the curriculum for the children. Experienced kindergarten teachers with special training in early childhood education, they are also knowledgeable of children’s mental and physical development needs.

Three to Five’s program

These programs are geared to meet the children’s physical, intellectual, social and emotional needs according to the children's mental and physical development. They are designed to expose the children to both languages equally. Putonghua is taught by a native teacher biweekly. These programs are based on the children's mental and physical development. The children are encouraged to learn by participating in investigative activities. Through these activities, the children are able to acquire different skills. These programs are designed to be independent, responsible, effective, participating to cooperate with others.

Parental Involvement

Parents are expected to adopt our educational philosophy, monitor general communication and maintain consistent cooperation with the school for the children's benefit. Gigamind kindergarten contact's parents through various ways, such as weekly family parent interview day, seminars and curriculum introduction and healthy newsletters.
